

## LIFEMAP DENTAL 300+

- ***Makes dental coverage personal.***

When you have a lot of employees with different needs, dental plans shouldn't be one size fits all. That's why LifeMap is changing the way it does dental. It puts you in charge of your dental dollars so your employees can get the kind of care they need, at a price everyone can afford.

# LIFEMAP DENTAL 300+

Let's face it: Standard plan designs are a great place to start, but most people want a plan that works for their unique needs. That's why LifeMap is changing the way it sells dental coverage for companies with 300 or more employees. Want to offer additional cleanings, waive the deductible for certain services or make an implant a Class B (restorative) service? LifeMap makes that possible.

## HOW IT WORKS

LifeMap Dental gives you and your employees choice over dollars and coverage.

1

### Decide how much you want to spend.

Just tell us your dental budget, and we'll customize a plan that stretches your dental dollars.

2

### Pick your network.

Active or passive PPO, managed care DHMO (in some areas) or even a no-network plan. LifeMap can create a plan that best suits your area, your needs and the needs of your employees.

3

### Tell us who's going to pay for the coverage.

All employer-paid, all voluntary or anywhere in between. We're ready to customize your dental experience.

## WHY SHOULD YOU BUY IT?

Flexibility! We don't decide what's best for your costs or your employees' care. You get to choose how much to spend, and your employees get the comfort of knowing their dental needs are being looked after.

### Benefit control

Fully insured or Administrative Services Only (ASO). With the ability to shuffle benefits from level to level and increase limits where you see fit, there's no reason you can't create that dream dental plan.

### Unprecedented freedom

If you want a standard plan design, we can do that. But we also give you the opportunity to alter a dental plan to suit any sort of needs.
